Since 1974, the Builders Association of Minnesota (BAM) has represented members and their businesses at the Minnesota State Capitol, before regulatory agencies and before the state's courts of law. Industry unity is good business.

BAM brings the statewide home building industry and 11 local associations together. As your advocate, we push for common sense laws that will benefit our members and our industry. As your watchdog, we strive to protect our industry from harmful legislation, regulation and litigation.

NAHB members save thousands of dollars each year thanks to NAHB's advocacy efforts and other member benefits. While home building is a challenging industry, NAHB's resources, expertise and educational opportunities can help you build a better product, build a better business, and create a more positive business environment.
